What Devices Use the Most Bandwidth in Your Home?

Smart TVs, 4K TVs, gaming online, and video calling (Zoom, FaceTime, Skype, etc.) are few of the devices or

applications you may use in your home that take up the most bandwidth. If you use these and are experiencing internet issues, give us a call at [319-827-1151](tel:319-827-1151). New mesh routers or increasing your internet speed could solve your issues.

**Valentine's Day is just around the corner!
How much does the average gift giver spend
on gifts and goodies?**

\$120

\$85

\$150

\$200

Looking for donations for your local non-profit fundraiser or community event?

Heartland loves to support and
