KEEPING JESUP CONNECTED

Heartland Technology strives to provide the best customer experience, the highest-quality services in technology, and dedicated support to our community.

THE HEARTLAND DIFFERENCE

When comparing internet providers, below are three key advantages that set us apart and why customers have continued to choose us for over 120 years. As a local, member-owned telecommunications cooperative, we're proud to reinvest in the people we serve. Since 1994, we've returned \$24 million in dividends and \$24 million in capital credits to our members; an average of \$923,000 per year.

- Dedicated **fiber-optic** connection to your home for reliable service and 24/7 support.
- No contracts or hidden fees **ever!**
- As a shareholder, customers may receive **yearly dividends**, which have historically helped offset overall monthly costs though they are not guaranteed.

We are also committed to giving back to the communities we serve by volunteering with local organizations, supporting charitable causes, and distributing our Here to Serve Fund to deserving non-profits.

INTERNET PACKAGES

Internet Hookup - \$30 + tax

As a cooperative organization, members have historically been eligible for annual dividend payments. Read more on the left panel.

Fiber 1 Gig \$144.00

Includes Managed Wi-Fi router. Designed for heavy-duty use in larger households or small businesses. Supports ultra-fast speeds for 4K/8K streaming, intensive gaming, multiple high-demand devices, and large file transfers. *1,000 mbps upload & download*

Fiber 500 \$119.00

Includes Managed Wi-Fi router. Perfect for power users, with fast speeds that support 4K streaming, online gaming, large file downloads, and heavy multi-device usage. *500 mbps upload & download*

Fiber 250 \$90.00

Suitable for medium households. It supports multiple HD or 4K streams, faster downloads, and multiple devices without noticeable lag. *250 mbps upload & download*

Fiber 100 \$75.00

Great for households with a few users, allowing HD streaming, video calls, and gaming with a few devices connected simultaneously. *100 mbps upload & download*

MANAGED WI-FI

\$7.00 per month for Fiber 100 & 250

Managed Wi-Fi is an extra service we offer that includes a router, set-up and installation, a Wi-Fi management app, ongoing maintenance and enhancements, 24/7 Wi-Fi support, and more to deliver a whole home Wi-Fi experience with fast and reliable speeds.
